

Notice of Community Presentation

TGS NOPEC Geophysical Company ASA, Petroleum GeoServices and MultiKlient Invest AS(MKI) NorthEastern Canada 2D Seismic Survey

Project Proposal

RPS Energy on behalf of Multi Klient Invest AS has filed a Project Description with the National Energy Board for a potential 2D Seismic Survey offshore Baffin Bay/Davis Strait within their jurisdiction.

NEB has issued a Section 5 Federal Coordination Notification (FCN) for the proposed TGS/PGS Northeastern 2D offshore seismic program in the Baffin Bay/Davis Strait area. Federal coordination was initiated for this project in the spring of 2010, however the project was suspended until 2011 and the project area has since expanded. An Environmental Assessment for this proposed project has been completed.

Community Presentations

As part of the Environmental Assessment of this project, the services of NEXUS Coastal resource management has been obtained by MKI to conduct community information sessions within the communities of Kimmurut, Pangnirtung, Qikiqtarjuaq, Clyde River, Pond Inlet and Iqaluit, to present information on the project and facilitate feedback and questions from community members regarding the proposed survey. Members of the community and representatives from various organizations within the area are encouraged to attend the presentation in their community. The dates are:

Kimmurut,	June 11
Pangnirtung,	June 14
Qikiqtarjuaq,	June 17
Clyde River,	June 20
Pond Inlet	June 22
Iqaluit:	June 25

All meetings are scheduled for 6 pm. A notice of any schedule changes will be posted in the hamlet office.
