Dear: Jamie Kereliuk

RE: Geophysical Operations Authorization (GOA) for TGS-NOPEC Geophysical Company ASA (TGS), Petroleum Geo-Services (PGS) and Multi Klient Invest AS (MKI) NorthEastern Canada 2D Seismic Survey (the Project)

As per our letter of July 16th, 2014, MKI would like to apply to for a change to the date on the multiyear approval of the authorization from July 2015-Nov 30 2019.

Although the survey has now been approved by the National Energy Board, and based on the conclusion that there is insufficient time to implement all the approved Benefit commitments and all terms and conditions of the Geophysical Operations Authorization to enable commencement of seismic operations during the limited ice free 2014 season.

MKI are now making preparations to commence operations in the 2015 season.

As a part of this application, attached please find (3) original copies of the signed Authorization form showing the adjusted dates for your consideration.

If you require anything further, please feel free to contact me at (902) 492-0281.

Yours truly,

A handwritten signature in cursive script, appearing to read "Darlene Davis".
