

Canada Energy Regulator - Reporting Form - Companies using trusts for set-aside mechanism

Last updated: 17 April 2025

This document was initially introduced as Appendix XV in the MH-001-2013 Reasons for Decision (<u>A60676</u>) and is updated over time, as required. <u>Click here</u> to check for an updated version. For questions on how to complete or submit this form, contact <u>Financial.Regulation@cer-rec.gc.ca</u>.

A – Company information	
Regulatory instrument holder (entity which holds the certificate or order)	
Filed by (company name) if different from regulatory instrument holder	
Pipeline system(s) name(s)	
List all associated order numbers or certificate numbers associated with the pipeline system(s)	
Provide the company's Annual Contribution Amount (ACA) for the current reporting year ¹	
Provide the REGDOCS document number ² and link to the company's ACA calculation form for the current reporting year	
Specify how the ACA is collected (from shippers, self-contributed, or both)	
B – Update on abandonment funds	
Provide the year open date of the financial reporting period	

² All REGDOCS document numbers should be in the format C_____, or if an older filing, it may be in a format like A12345. This is not the file number found at the top of correspondence. For example, if the company's ACE was last approved by the Commission on 27 March 2024, the REGDOCS document number and link is <u>C29054</u>, and this is not the file number at the top of the Commission's letter (i.e., it is not 3430786).

¹ The annual amount reported should be pro-rated, if there has been a change during the current reporting year. For example, if a new ACA was effective 1 May of the reporting year, the full-year ACA should be weighted 4/12 with the previous ACA, and 8/12 with the new ACA. Provide supporting calculations and the REGDOCS document number for both documents (in this example, both ACA filings).

Specify units used	Notes	Planned	Actual
(thousands, millions, actual			
amount, etc.) in "Notes"			
column			
Year open balance ³	The Planned Year open		
	balance should reflect the		
	Planned Year close balance		
	from the prior year.		
Earnings/losses within trust	Provide the earnings/losses		
•	before fees, taxes and other		
	expenses.		
Rate of return in trust, before	Provide calculations for		
taxes, fees and other	actual rate of return.		
expenses (%) ⁴			
Other expenses	List other expenses.		
(i.e., trustee and service fees,			
admin expenses, etc.)			
Tax expense/recovery on			
earnings within trust			
Amount collected			
from shippers			
Abandonment surcharge			
paid to other pipelines			
· · ·			
Tax true-ups			
Contribution to trust ⁵			
Approved disbursements	Provide CER order number		
for abandonment activities	authorizing the		
	disbursements.		
Year close balance ⁶			
Provide the year close date of	the financial		
reporting period			
Provide the percentage different and planned year close balan	ces ⁷		
If the variance between the actual and planned is more			
than 10%, include an explanation for the difference and			
provide a plan to resolve the			
Any other relevant information		anation where actual varies	materially from planned)

³ If the Planned Year open balance does not reflect the Planned Year close balance from the prior year, provide an explanation.
⁴ In the "Planned" column, include the pre-tax nominal rate of return consistent with the rate of return in Line 5 of the company's ACA form/rate of return specified in the company's statement of investment policies and procedures that applies to the current reporting year. In the "Actual" column, include the trust's actual annual rate of return, before taxes, fees, and expenses calculated as a percentage.

In the "Notes" column, include the calculations for the actual rate of return.

⁵ This amount should be consistent with the "Contributions" line item in the trust's audited financial statements (in the statement of operations and changes in net assets).

⁶ The year close balance should be derived as a result of the inputs in this form and should be consistent with the "end of year net assets" from the trust's audited financial statements.

⁷ This amount should be calculated as: (actual year close balance/planned year close balance) -1 expressed as a percentage. If the variance is greater than 10 per cent include a detailed explanation for the difference.

⁸ Attach an additional document for explanation and plan to resolve the difference.

Provide the REGDOCS document number(s) and link(s) to any CER orders authorizing the disbursements				
C – Compliance confirmation				
For the current reporting year, has there been a change in the statement of investment policy and procedures (SIPP)?	No	Yes File a new or updated SIPP		
Provide the REDGOCS document number and link to latest SIPP		with the CER.		
Have all of the investment decisions and actions throughout the year complied with this SIPP?	Yes	No Include an explanation attached to this form.		
Have there been any changes in cost estimates, or other components, that could prompt material changes in the funding plan?	No	Yes Include an explanation attached to this form.		
D – Update on status of pipeline				
Is the pipeline(s) still in operation	Yes	No Include an explanation attached to this form.		
Are any of the pipelines contained in the abandonment cost estimate deactivated? If so, provide the deactivation order number(s).	No	Yes Deactivation order number(s):		
For any deactivated pipe without deactivation order number(s), provide the number of years the pipe(s) has/have been out of service.				
E – Contact for abandonment funding matters				
Name(s)				
Email(s)				
Telephone(s) F – Confirmation of form content by officer of the company holding regulatory instrument				
Filed by (officer of the pipeline system certificate holder) <i>Print name of individual</i>				
Signature				
Dated
