Pipeline Company Name
excavation or construction on or near a facility located at Spread 2, Vantage Pipeline Project.

On 26 September/4:00pm, the undersigned *National Energy Board* inspection officer conducted
Date / time
an inspection of Vantage Pipeline Project, proposed reroute area at 82+000 to 82+250.
Location on R.O.W., compressor, pump or meter station

The inspection officer has noted the following:

During the inspection of the Project at 82+000 to 82+250, construction activity was observed to have occurred off of the pipeline Right-of-Way (RoW). Activities observed included completed mowing, topsoil stripping and grading in an area of native prairie for which Vantage has applied for a deviation pursuant to Section 45 of the National Energy Board Act. The application for deviation is currently being considered by the Board and has not yet been approved.

These observations represent non-compliance with Section 31(c) of the National Energy Board Act and Condition 2 of Certificate OC-059.

the officer shall describe the grounds for making the order

Based on the above mention, the inspection officer has reasonable grounds to believe that a hazard to the safety or security of the public, or employees of a company or a detriment to property or the environment is being or will be caused by the construction, operation, maintenance or abandonment of the pipeline.

Therefore, Vantage Pipeline Canada ULC is HEREBY ORDERED, pursuant to section 51.1 of the *National Energy Board Act*, to
